

Representing You

I have made representation a foundation of my campaign. I love this community - Ballard, Phinney Ridge, Green Lake, Greenwood, Fremont, and the people who make these communities special and strong, have shaped me into the person I am today. I have also spent my life on public service. I served low-income communities across our nation in AmeriCorps, I served at a soup kitchen throughout college, and I organized trips to rebuild New Orleans after Hurricane Katrina. I will bring my love for this community and my dedication to service to City Hall as your councilmember.

District Office

I will have a district office which I will rotate to a different neighborhood every year. I will also personally staff my district office on evenings and weekends (though maybe not every weekend!). I have lived in Ballard, in Fremont, and in the Green Lake neighborhood. I understand District 6 communities have a wide range of issues and concerns which matter to us. By moving my district office and staffing it at non-traditional times, I hope to make myself accessible to as many people in our community as possible.

Constituent Services

I will prioritize high-quality constituent services. In each of my legislative positions - in the Oregon legislature, the Washington legislature, and now at City Hall - I have had the pleasure of helping constituents navigate government and getting them the help they need. It is always a challenge when bureaucrats start with “no”, and I will not stop until I have gotten you solutions. I have relationships already established at the City, and will get you the answers you need.

Community Group Meetings

If you are already a member of a community group, you won't need to adjust your schedule to talk to me about the issues which matter to you. I will attend your meetings and councils so I can talk with you about how I can serve you effectively. Community groups are important centers for local discussion, and I look forward to engaging in those discussions with my constituents.

Canvassing post-election

I will continue canvassing once the election is over. Going door-to-door is my favorite part of this campaign - it gives me the opportunity to connect with people who may never be able to make it to a forum or a Meet and Greet. It is important to me to meet you where you are and be present in the community. I want to hear from everyone in District 6, and I will do so by meeting you at your home.

This is our home, and we are all neighbors. I will be in the community so I can be here for you, listen to your concerns, and get you solutions, because I've got your back. I look forward to serving you in the months and years to come.
